## FOREWORD

Tourism industry and services are not only money maker enterprises but also promote human resource development that brings progress and prosperity to the region in a positive way. They can although bring negative effects such as environmental pollution, social and cultural conflicts, not to mention the rising cost of living at the touristic places, but the overall positive effect is the improvement of both the economy and social conditions of the country. The policy on tourism management is therefore included in the National Strategic Plan in both developed and developing countries in the world.

The increasing numbers of tourists in all countries bring a tremendous income which makes the tourism industry more and more advanced worldwide. Thus, the tourism industry and services always have to come up with new knowledge and attractive strategic plans to get the competitive edge. Therefore, with the continuing changing global conditions in terms of economy, society, technology, communication and transportation the tourists have to adjust to these changes. The researches that can find out strategy in planning and management are very important in making various organizations and countries to get the advantage in the competitive industry.

The International Journal of Asian Tourism Management (ATM) is a peer-reviewed journal published twice a year by the School of Tourism Development, Maejo University, Thailand. This journal is the second volume (number 2) that publishes original research papers, invited review articles, and short communications (scientific publications) including research papers as follows: 1) Responsible Tourism: Are Values an Imperative to Action?
