INTRODUCTION

The 15th European Congress of Sport and Exercise Psychology – Building the Future of Sport and Exercise Psychology

The FEPSAC Congress will take place from July 15th to 20th 2019 in Muenster at the Schloss (the Muenster Castle) and its surrounding buildings. The special occasion is the 50th anniversary of the European Federation of Sport Psychology (FEPSAC), founded 1969 in Vittel, France, whose members are comprised of 24 national associations, e.g., including the German Society for Sport Psychology (asp). Accordingly, the hosts will welcome a large number of participants and expect a considerable amount of public interest. With over 1,000 anticipated participants during the week, the 15th FEPSAC Congress will be one of the largest international sport psychology congresses organized to date.

WELCOME ADDRESSES

Prof. Bernd Strauss – Congress President and President of the German Society for Sport Psychology (asp)

As Congress president and president of the German Society for Sport Psychology (asp), I am very pleased to welcome you to the 15th European Congress of Sport and Exercise Psychology in Muenster, the 15th FEPSAC Congress.

We expect almost 1,000 attendees to find their way in the medieval, beautiful, and loveable city of Muenster, located in the heart of Europe. With Muenster even being rated as the most liveable city in the world in 2004 by the United Nations Environment Programme (UNEP). Therefore, we do hope that you will find some time during the busy Congress week, which is jam-packed with activities, to explore this peaceful city. Perhaps by using the most popular vehicle in Muenster, namely, the bicycle. Over 500,000 bicycles can be found within this city of 300,000 inhabitants.

We invite you all to celebrate the 50th anniversary of FEPSAC during these five days in the Schloss (the castle) of Muenster (the main venue of this Congress). Over the last two-years the organizational committee has worked tremendously hard to be able to offer an outstanding and engaging program, including well over 900 presentations, a record in the history of FEPSAC.

I am absolutely excited about the outstanding collaboration with FEPSAC, the German Society (asp), the city of Muenster, the many supporters and sponsors, and finally, the state of North-Rhine-Westphalia. I am honored and excited that this Congress will be held under the patronage of the Undersecretary for Sport and Voluntary Work of the State of North Rhine-Westphalia, Andrea Milz.

I wish you all a fruitful, pleasant and exciting week, full of work, inspiration and hopefully also some relaxation.

Warmest wishes,
Prof. Dr. Bernd Strauss

**Prof. Anne-Marie Elbe,
FEPSAC President**

On behalf of FEPSAC's Managing Council, it is my great pleasure to welcome sport and exercise psychology enthusiasts from around the world to beautiful Muenster in order to celebrate the 15th European Congress of Sport and Exercise Psychology and FEPSAC's 50th anniversary from July 15th to 19th, 2019.

We are expecting around 1000 colleagues who will be hosted by the wonderful team from the Department of Sport and Exercise Psychology at the University of Muenster and by the German Society for Sport Psychology (asp). There could be no better venue than Muenster's own castle to come together under the Congress theme of "Building the future of sport & exercise psychology".

You will have the opportunity to enjoy six fantastic keynote lectures, a multitude of exciting symposia, workshops, individual oral and poster presentations. Special highlights will be the Science Slam as well as the Young Investigators Award. Furthermore, the Congress offers excellent opportunities for scientific exchange, an attractive social program as well as a wide variety of sporting activities. In addition, FEPSAC's vibrant history will be highlighted throughout the week with an exhibition, an anniversary symposium, the launching of the FEPSAC archive as well as the publication of an anniversary monograph and a special issue in Psychology of Sport and Exercise.

I am convinced that this special anniversary Congress will create many lasting memories for you and will be an important milestone in building the future of sport and exercise psychology.

I wish you an amazing Congress experience!

Prof. Dr. Anne-Marie Elbe

**Andrea Milz, Undersecretary for Sport and Voluntary Work
of the State of North Rhine-Westphalia (NRW)**

I am very happy to be the patron of this event. The slogan of the congress is "Building the future of sport and exercise psychology". Over the coming days you will be learning of the work being done in the fields of sports science, psychology and sports and exercise psychology. The presentations should be used not only as bare reports of project research done and findings arrived

at but also as starting points for discussions relating to practical activities and knowledge-transfer possibilities. I believe that the exposure and media coverage of the congress is most likely to generate considerable public interest if the transfer potential of the new scientific results and findings is set out clearly. This will bolster interest in practical research projects and raise the importance of research within the individual areas of application.

The government of the State of North Rhine-Westphalia is an active promoter of the sciences. Last year, for example, we revived the Regional Sports and Science Awards and singled out three sports scientists for their outstanding work in their respective fields. Each prize came with a cheque for €15,000.

I would like to thank the city of Münster, the University of Münster and Professor Bernd Strauß and his team for holding the 15th FEPSAC European Congress of Sport and Exercise in Münster and also for organising the celebrations for FEPSAC's 50th anniversary.

You, the congress participants, will have the opportunity to talk with national and international policymakers and representatives from the sports and science sectors and the business community and will be learning more about institutions, projects, products and materials. Use this chance for dialogue.

Parallel to your involvement in this multifaceted congress offering up to 20 sessions and workshops a day I would love to see you finding the time to explore the sights of Germany's No.1 bicycle city. I assure you it will be worth your while.

Andrea Milz

**Prof. Johannes Wessels,
Rector of the University of Muenster**

A warm welcome to the University of Muenster, the WWU (Westfälische Wilhelms-Universität). As Rector, I am delighted that you have chosen WWU as the venue for the 15th Congress of the European Federation of Sport Psychology (FEPSAC) on the occasion of its 50th anniversary!

Besides a broad variety of keynotes by internationally renowned scientists and several workshops, this year's Congress foresees a sports program, which I highly recommend to you. WWU encourages its students to view sports as a relevant part of their academic life. All students and staff have the opportunity to choose from over 120 different disciplines offered by our so-called University Sports, which currently serves roughly 20,000 participants each week. Through your participation in the offered sports program, you will have the chance to see at least part of our sports campus.

Since 2002, WWU is also official partner university in the field of top-level sports promoting competitive sports at the national and international level. As such, we want to enable students to benefit from both, an excellent scientific education and a successful sports career. WWU's Department of Sports and Exercise Psychology has an important role in this context. As it is also responsible for the organisation of this year's FEPSAC Congress, I take the opportunity to thank the Congress President Prof. Strauss and all others involved for their dedication in organising this event and wish all of you an inspiring and memorable time in Muenster.

Prof. Dr. Johannes Wessels

**Markus Lewe,
Mayor of the City of Muenster**

I am delighted that this year the 15th European Congress of Sport and Exercise Psychology is being held in our city. As the location of one of the most renowned universities and university clinics in Germany as well as being a city of science, Muenster is particularly suited to host this event. The university with its research, facilities and transfer of knowledge is a significant

location factor for Muenster and the surrounding region.

With nine universities, over 60,000 students and a network with elite research Muenster has a tradition as an academic location. The future is created in the lectures, institutes and laboratories. The city and science belong together, forming a firm alliance and making Muenster one of the leading educational, scientific, research and development locations in Europe and a centre of concentrated innovative energy.

You have come from near and far to our beautiful city and I hope that you will take enough time to see for yourself the proverbial "science and lifestyle" of Muenster. I am not only encouraging you to do so, I am also sincerely inviting you to do so. The beautiful old town, the large number of bicycles and young people are only three of the things that will immediately stand out. Make your way through our city on varied tours of discovery and sense some of the atmosphere which makes Muenster so unique. I promise, it's worth it!

I hope you will feel comfortable here in Muenster and I wish you an interesting Congress with rewarding lectures, fruitful discussions and stimulating presentations.

Markus Lewe

CONGRESS OVERVIEW

Congress Overview

The Congress will start on Monday, July 15th at 9am with pre-congress workshops. The 15th FEPSAC Congress will officially start on Monday, July 15th, 2019, at 2pm. You can register at the Registration desk. Registration is possible from Monday morning, 7.30am., and will remain available during the entire Congress.

The Opening Ceremony will take place on Monday, July 15th, 2019 at 4pm. The first part of the opening ceremony will take place in the lecture hall building H (address: Schlossplatz 46, 48143 Muenster) with short welcome addresses and the opening keynote by Brett Smith. The second part will take place in the LWL Museum of Art and Culture which is located 500 meters from the lecture hall building H. Students will guide us to the venue.

Every day, from Tuesday to Friday, the Congress program starts at 8.30am with the first workshops, followed by daily poster sessions and a keynote. After the lunch break (for recommendations regarding restaurants, see below), special events will take place every afternoon. These special events will be outlined in more detail in the following.

Congress dinner: on Friday, July 19th, 2019 at 7pm, the closing of the Congress will take place. Busses will take the participants from the Congress location to the event (and vice versa). In the evening there will be a big barbecue, live music and a DJ awaits the guests for FEPSAC's 50th anniversary.

2 IMPORTANT DATES & SPECIAL EVENTS

Opening Ceremony and Welcome Reception

On Monday (July 15th) the Congress will start with a variety of pre-congress workshops and symposia (see table). The official opening ceremony will start on July 15th at 4pm at the lecture hall building H (H1 - Vittel) with a short welcome reception, followed by the first keynote lecture. After the official start of the Congress, all participants, representatives and honorary guests will be accompanied to the famous LWL Museum for Art and Culture and greeted at 6.30pm with drinks, hors d'oeuvres, live entertainment and official welcome speeches.

General Assembly FEPSAC

The Managing Council (MC) of the European Federation of Sport Psychology (FEPSAC) will organise a FEPSAC General Assembly (GA) on Tuesday (July 16th) 2019 at 4pm in the H2 - Bern. Information regarding elections will be on display in the marquee.

Science Slam

On Tuesday, July 16th, 2019 at 7 pm our science slam will take place in the lecture hall room H1 – Vittel. The science slam is a special form of an oral presentation that reaches a broad audience. It offers funny and creative, but still informative, scientific presentations of up-to-date and original research. The four best applicants have been selected by a science slam committee. The best science slam contribution will be awarded with a prize of € 1,500 by the Congress host. Each runner-up will be awarded with a price of € 250. The award ceremony will be held at the end of the event. This event will be open to the public and will be further enriched with a show-act, live music and the selling of beverages by the student association of the Institute of Sport and Exercise Sciences. Drinks and snacks at this event have to be paid on-site.

Young Researcher/Early Career Researcher Day

On Wednesday, July 17th, several events are dedicated to the Young Researchers at FEPSAC 2019.

Knowledge Café

The Knowledge Café which will take place on Wednesday, 17th of July at 12.30pm in the vom-Stein Building. This event is organised by ENYSSP and offers the opportunity to share on-topic scientific insights. Interested Congress participants are asked to register and indicate their preferred topics until Monday night on the sign-up sheets present at the lobby in the Schloss. For all the young researchers participating in the Knowledge Café there is the opportunity to buy a lunch bag for € 9 inside the vom-Stein Building.

Young Researcher Award

FEPSAC invites Young Researchers in Sport Psychology to submit their scientific work for the 2019 FEPSAC Award. The Young Researcher Award will be handed out to the winners of the following categories: Oral and Poster presentations. Since the FEPSAC Congress in 1991, FEPSAC acknowledges the outstanding research achievements of its members. For the 15th Congress in 2019, FEPSAC has encouraged students of any age and nationality to apply for this Award. During the Congress, the five applicants for the Young Researcher Award will present their scientific work at the Aula in the Schloss from 4pm to 5.30pm. The award ceremony will be held during the Congress dinner on Friday, July 19th. € 500 will be awarded to the first place, € 300 to the second and € 200 to the third place.

Student / Post-Doc Social

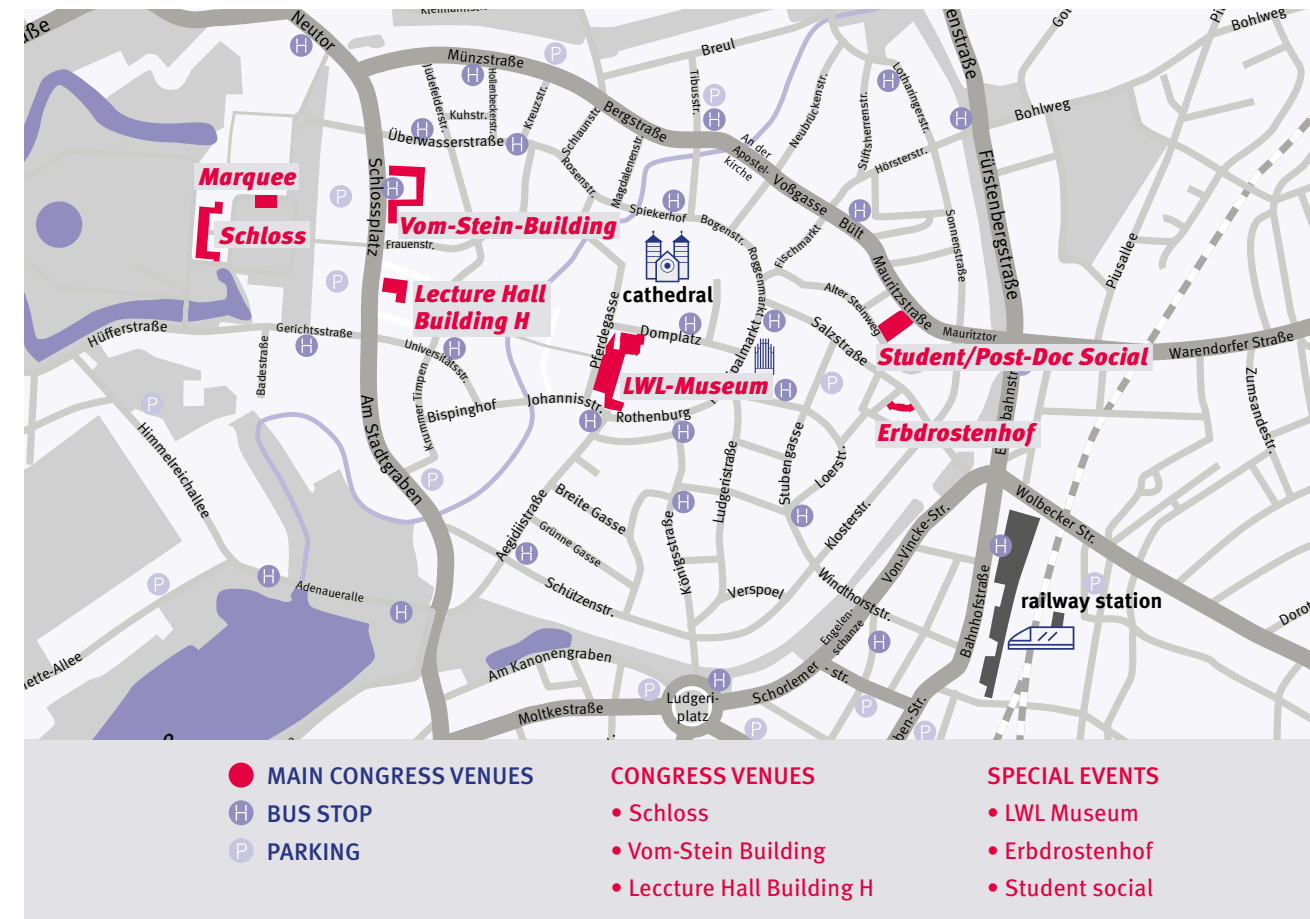

For all young researchers, the FEPSAC Congress will also provide a chance to meet up and network, by organising a dinner for both, students and Post-Docs (and those who feel young) on Wednesday, the 17th July at 7:30pm at the Restaurants Besitos and Aposto. Food and drinks have to be paid on-site. **Address: Alter Steinweg 21, 48143 Muenster.**

Social Program

Beside the scientific program, all participants have the opportunity to take part in one of the diverse offers from our social program on Thursday (July 18th) from 3.30pm onwards. To sign up for one of the offers, you have to register on the sign-up sheets displayed in the lobby of the Schloss. You can choose from the following activities:

- 1) A guided City Tour, in which the city can be explored by foot (max. 2x 30 participants)
- 2) A guided City Tour in one of the typical tourist buses. Get an impression of the city in a comfortable and fun way (max. 75 participants)
- 3) A bicycle ride to the Muehlenhof Museum at the Aasee with a visit to its famous windmill (max 30 participants, bicycles will be provided)
- 4) Visiting the city museum of Muenster, which features an exhibition of Muenster as the “City of bicycles” (unlimited)

- 6) Visiting the famous LWL museum of modern art (25 participants)
- 7) Participating in a beach volleyball tournament at the sport facilities of the University of Muenster. During the tournament, a small barbecue with drinks and refreshments will be provided by our students. Food and drinks served there have to be paid on-site (see more information below) (unlimited).

Map – Important Dates & Special Events

Fees for these offers are already included in the Congress Fee. The following two offers require an extra fee of €10 when registering for the tour until Tuesday (July 16th) 12pm in the Lobby of the Schloss.

- 1) Visiting the local brewery Finne (max. 40 participants)
- 2) Visiting the castle in Nordkirchen, known as the Westphalian Versailles (max. 60 participants)

All Congress participants only have the chance to take part in one of the offers regarding the social program, as they take place simultaneously. As we are working with external partners, registration for these offers are binding until Tuesday, July 16th, 12pm in the lobby of the Schloss. In the lobby, you can find information about departure time and meeting points as well as the name of your guides.

26 IMPORTANT DATES & SPECIAL EVENTS***Beach Volleyball Tournament***

On Thursday (July 18th) afternoon a large beach volleyball tournament will take place at 5pm at the facilities of the Institute of Sport and Exercise Sciences at Horstmarer Landweg 62B, 48149 Muenster. This tournament will most likely be supervised by two professional German team volleyball players from the premier league team USC Muenster. During the tournament, a small barbecue with drinks and refreshments will be provided by students. Food and drinks served there have to be paid on-site.

Closing Ceremony and Congress Dinner

The closing ceremony will take place on Friday (July 19th) in the north of Muenster at the Speicher 10. Special Busses will take all participants from the bus stop Landgericht to the event location between 6.15pm and 6.45pm. Starting at 10.30pm there will be a special shuttle service, running every half an hour, from the event location to three spots in the city centre: Schlossplatz and Eisenbahnstraße. The closing ceremony will entail a big barbecue with both a DJ and live music. Drinks at this occasion are not included in the Congress fee.

Photo Contest

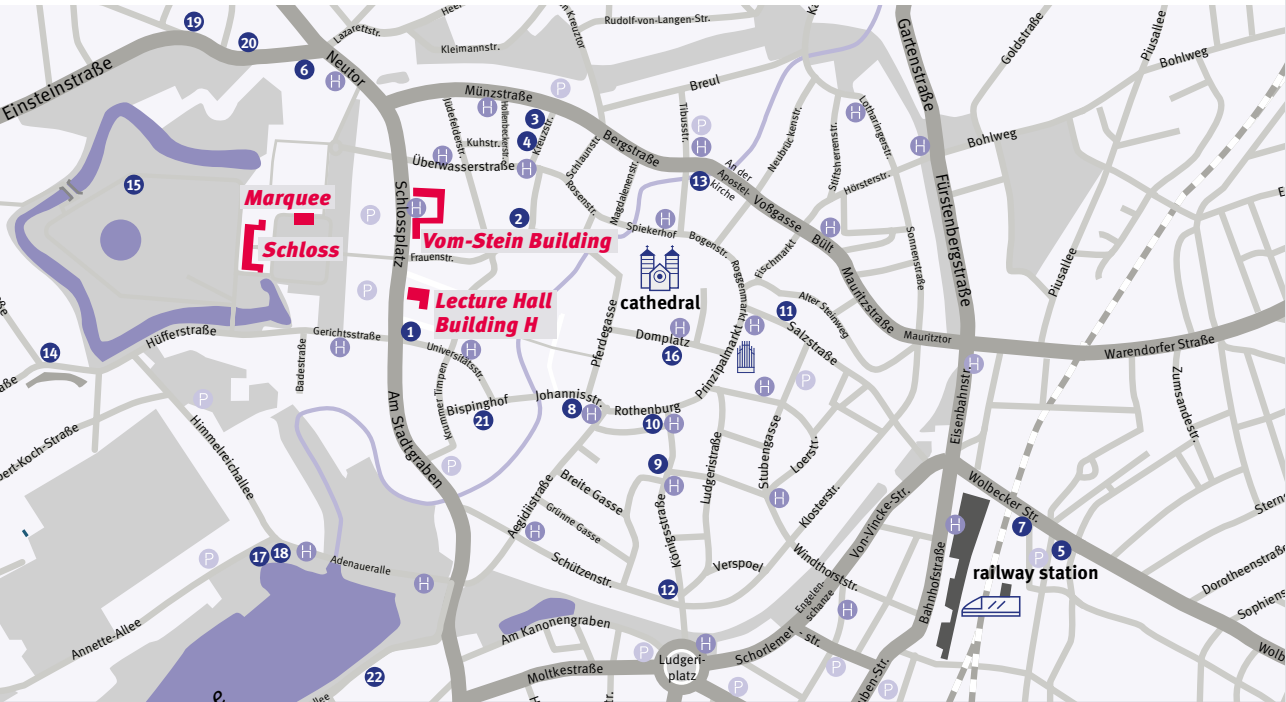

For the occasion of the 15th European Congress of Sport & Exercise Psychology, Muenster hosted a photo contest. For this, we received photos from all over the world that show the relatedness of our attendees to the FEPSAC and included the flyer or logo of the Congress. You can see the winner of each month on our website: <https://www.fepsac2019.eu/fepsac-around-the-world/>. During the closing ceremony, we will award an overall winner with the best picture that was taken.

Fair & Q-Uni

During the Congress, a famous tourist attraction, the fair called “Muenster-Send” will take place on the square in front of the Schloss just 100 meters away from the Schloss. From Thursday (July 18th) to the end of the Congress this area will be crowded by tourists and visitors. The Send opens daily at 12pm. Be aware that this public festival may interfere with the pathway from the Schloss to the lecture hall building H and the vom-Stein Building. Furthermore, the childrens university – called Q-Uni – will host events in the back of the Schloss.

Coffee Breaks

Coffee breaks with free coffee, beverages and some snacks take place during the poster sessions (10am – 11.30am every day) in the marquee located in front of the Schloss. During the day, coffee and other beverages will be available here. Water dispensers will also be available in the marquee all day, which is the perfect location to fill the reusable bottle present in your Congress bag.

Lunch

During the Congress, all participants are responsible for their own lunch. As our Congress venue is entirely pedestrian-friendly and close to the city centre, we recommend all surrounding restaurants as well as the universities cafeterias, the Mensa Bispinghof and the Mensa am Aasee (Bismarckallee 11, 48151 Muenster). Feel free to ask our staff members for recommendations regarding restaurants in the city.

DAILY
SPORTS
PROGRAM

Daily Sports Program

During the Congress a wide variety of sport activities will be offered. This includes several running sessions around the Promenade, as well as the beautiful Aasee, which provides a scenic area to walk around. These running sessions will be hosted daily in the morning (7am) by a member of the Congress staff. Distances and routes will be adapted to the groups' level of performance. Meeting point for all running sessions is the main entrance of the Schloss.

If you prefer to exercise on your own, a state-of-the-art gym is at your disposal, the Campus Gym. During the week of FEPSAC 2019 you can use the Campus Gym free of charge for a workout break. Enjoy our new, air-conditioned facility with Techno Gym equipment. All you need to bring is your Congress badge, sports clothing and a towel (which can be lend at the Campus Gym as well). The Campus gym is situated at the Institute of Sport and Exercise Sciences (Horstmarer Landweg 86b, 48149 Muenster), which is 2.5 km away from the Congress venue.

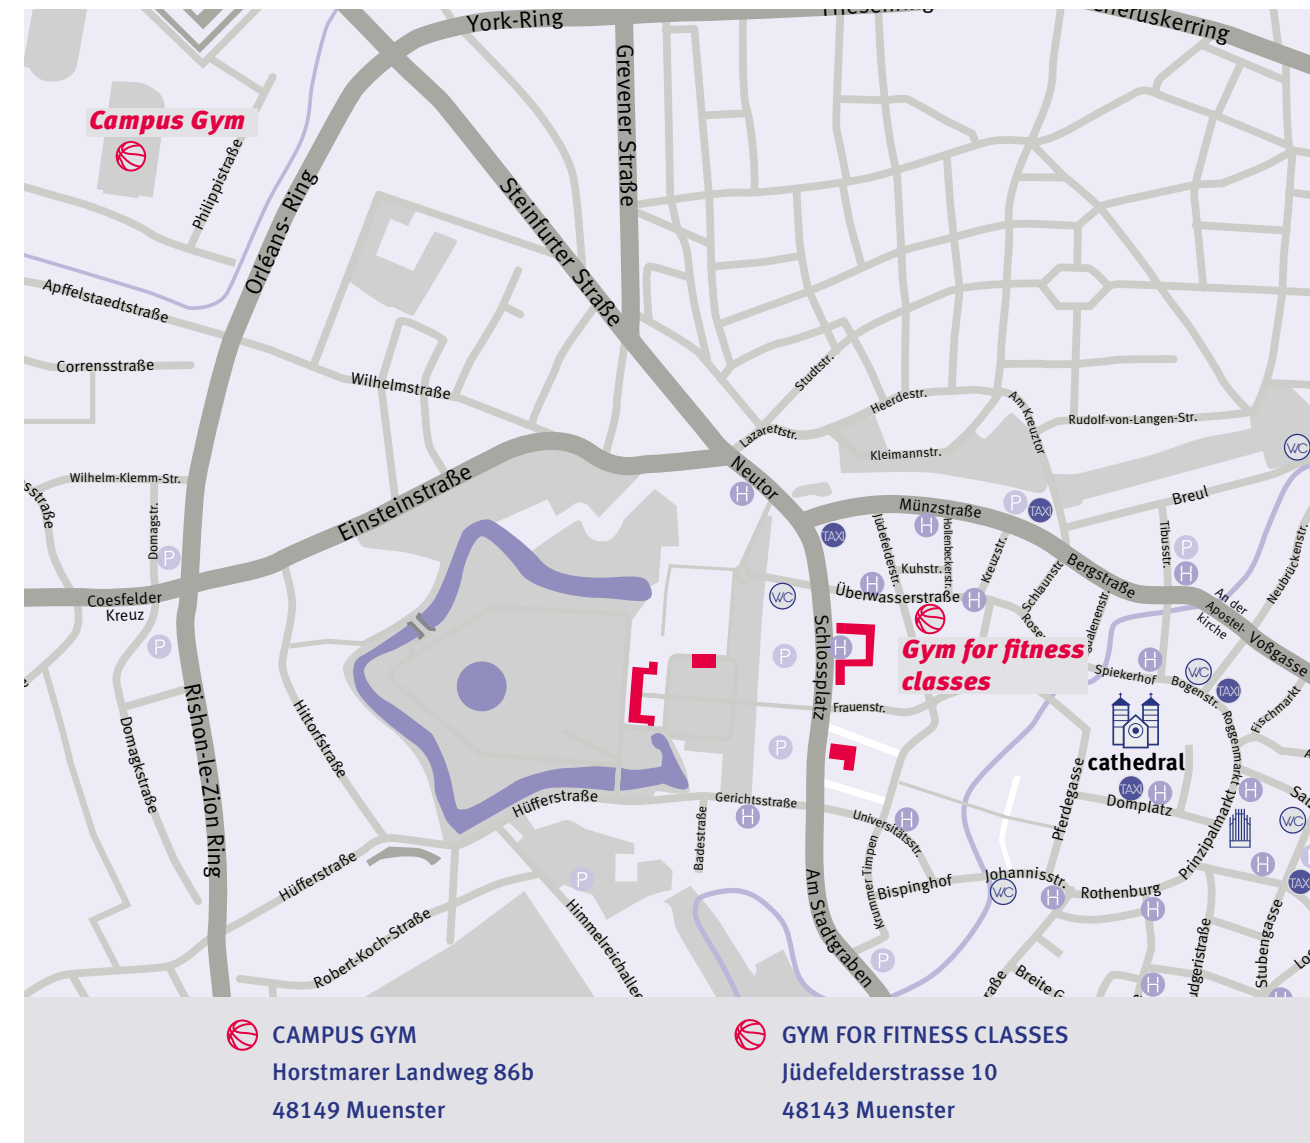

Furthermore, courses in power fitness, Pilates and yoga will be held during this week in a gym close to the Congress venues (Jüdefelderstrasse 10, 48143 Muenster). To sign up for these course offers, please register yourself in one of the lists in the lobby of the Schloss.

You can find a box of balls and frisbees etc. on the lawn next to the marquee. If you like, you can play there during the lunch break.

Ride a Bicycle during the FEPSAC Congress

As it is a typical way of navigating through Muenster, we offer bicycles for Congress participants during the FEPSAC Congress. Participants are able to rent bicycles (for free) for their preferred period of time until Friday, July 19th. The participants accept liability for the bicycles. If you are interested in renting a bicycle, see the lists that are displayed at the Information Desk or ask the staff at the Information Desk. Collection and return of rented bicycles takes place in front of the Schloss.

5 PRACTICAL INFORMATION FOR ALL PARTICIPANTS

Congress Name Badge

To enjoy a smooth FEPSAC Congress it is mandatory to wear your Congress name badge at all times. The badge will provide you access to all Congress venues and further allows participation in the various sport offers. In addition to that, the Congress badge enables you to use the public transport service throughout the whole week.

WiFi Access

When signing in for the Congress you will receive Guest Access to the university network with your registration in the Congress for up to 1 GB of highspeed internet a day. Connect your device to the SSID „GuestOnCampus“ and start your web browser (e.g., Chrome or Firefox). When you start the browser, you will be automatically redirected to the login page (hotspots). After you have agreed to the terms of use, you can log in by clicking on the „Log in for free“ button. Please note that the connection is unencrypted. For further information visit:

https://www.uni-muenster.de/ZIV/en/Anleitungen/WLAN/WLAN_einrichten.html.

The University of Muenster is a member of the eduroam network. Users from eduroam institutions, who have registered for eduroam, can use the wireless internet without local registration.

Congress App

In addition to the program booklet and the website, we also offer an accompanying FEPSAC 2019 app. Use this app to get information regarding the events, presenters, sessions, abstracts and much more. To install and use the app, please follow the instructions below.

1. Search for “FEPSAC” in the Google Play or Apple App Stores.
You can also scan the following QR code:
2. Tap and add “2019 FEPSAC” from the Upcoming Shows.
3. Login using the following username and password:
Username: Please enter your email address
Password: fepsac2019

You now have full access to our wonderfully designed app and can even make a personalized profile. In addition, don't forget to allow notifications so you don't miss any updates. More information regarding the app is available on the FEPSAC 2019 website.

Photo & Film Recordings

When you registered for the Congress, the organiser was given permission to take photos and film during the Congress, and to use these recordings in the context of the event for public relations and documentation, analogue and digital. The organiser has legitimate interests in using the photos on its website, on Facebook and in print media (Art. 6 § 1 sentence 1 lit. f DSGVO).

Child Care

During the FEPSAC Congress, there is the possibility to use child care services. A team of Certified Child Care Professionals will be present from Monday, July 15th, to Friday, July 19th, 8.30am to 6.00pm. Parents or guardians who would like to make use of the child care service are asked to contact the Information Desk. Together with our local and trusted service partner, we will try to adjust the child care program accordingly based on the number of children, their respective ages and the languages they are familiar with.

Charging Stations

For your electronics we have several charging locations situated in the basement of the Schloss and in the cafeteria near the vom-Stein Building. Please remember to bring your own adapter! Also, there will be an opportunity to charge your electronic devices in each seminar room during the workshop sessions. The charge stations in the seminar rooms offer USB ports.

Certificate of Attendance

Once you have checked in for the Congress at the Registration Desk you will be able to download your certificate of attendance. You can find the document in your ConfTool account.

Non-Smoking Policy

All Congress venues are non-smoking (no smoking zones). Smoking is permitted on the premises outside of the buildings. Please use the ashtrays provided.

6 INFORMATION FOR PRESENTERS

Every FEPSAC Congress lives off the wide array of excellent scientific presentations and discussions/presentations on best-practice interventions. The Parallel Paper Sessions are at the heart of this Congress, where researchers and practitioners from all over the world will showcase their recent studies and results or best-practice scenarios in oral presentations. Every morning from 8.30am until 10.00am and every early afternoon from 2.00pm until 3.30pm, there will be 15 parallel sessions on a variety of topics. During those sessions, we invite you to attend engaging demonstrations and discussions of state-of-the-art research and applied interventions in all fields of sport and exercise psychology.

FORMATS

Pre-Congress Workshops

Several pre-congress Workshops covering a wide variety of topics will be offered on Monday July 15th, 2019 at the FEPSAC Congress venue.

Symposia

All symposia consist of oral presentations from multiple speakers and cover a specific coherent topic relating to Sport and Exercise Psychology. The focus of the presentations can be theoretical, methodological, or applied. Symposia are scheduled to be 90 minutes. Symposia chairs are responsible for time management during the session and should allow sufficient time for questions and discussion with the audience.

Paper Sessions

Paper sessions consist of up to six oral presentations. Each individual presentation consists of a 12-minute talk followed by a 3-minute discussion. The sessions have been compiled based on single contributions that are related to Sport and Exercise Psychology. The focus of the presentations can be theoretical, methodological, or applied. All paper sessions are scheduled to be 90 minutes. Session chairs are responsible for time management during the symposia in order to allow switching between sessions. Session chairs and speakers should allow sufficient time for questions and discussion with the audience. Sessions with less than 6 presentations will have time for a longer discussion at the end of the session.

Poster

Poster presentations are a special form of presentation and dissemination of scientific work. Four poster sessions will offer an outstanding forum for scientific exchange and discussions. Poster presentations will be held from Tuesday to Friday between 10.15am and 11.15am in the marquee in front of the main venue, the Schloss. During these sessions, coffee, tea and water will be provided. We invite you to engage in the exchange of ideas and professional discussions. If you are presenting your poster, we recommend you to hang up your poster prior to the start of the session to avoid traffic around the poster area. Each poster as well as the poster spots are assigned with distinct codes, which indicate the location of your poster. During the poster presentations, presenting authors are asked to be present at the poster from 10.15am to 11.15am. During the regular Congress breaks between 3.30pm and 4.00pm, all presenters have time to remove their posters. If you miss to take down your poster before 6.00pm (from Tuesday to Thursday), helpers will store it at the Poster Desk in the Schloss. On Friday posters have to be taken down until 1.00pm. All posters that have not been picked up until Friday will be disposed by the Congress team.

Poster Printing Service

All posters that have been sent to the Congress staff prior to the Congress can be collected at the Poster Desk in the Foyer of the Schloss. You can also pay there in either cash or with a Visa/Mastercard. Last minute emergency poster printing service is available one day prior to your presentation for € 80. Please contact the information desk for further information about last-minute poster printing.

Gimme-5 format presentations

As a relatively new format, four Gimme-5 sessions will be part of the program. In these sessions, each presenter will have five minutes to present a maximum of five slides. After each short presentation, a discussion of up to three minutes is added. A maximum of ten contributions are presented within one session. Session chairs are expected to take charge of time management during the sessions in order to allow switching between sessions.

Congress Workshops

The Congress workshops involve active participation through interactive discussions, demonstrations, and/or experiential learning through hands-on experiences for participants. Applied workshops offer opportunities for practitioners to share their professional practice strategies. Evidence-based workshops will be given priority. Research workshops can include, but are not limited to, research methods, ethics in research, theory or measurement development, grant writing and mentoring in scientific writing. All workshops are scheduled for 90-minute time slots.

Panel Discussions

Panel Discussions/Round Table Discussions bring together experts from a specific, relevant topic who will share their experiences, intervention strategies and how they link theory and/or practice. Bringing expert researchers and expert practitioners on a common topic together in a panel discussion provides excellent opportunities for an audience to learn and engage in open dialogue in a scientist-practitioner framework.

Science Slam

The Science Slam will take place during the evening session on Tuesday, July 16th, 7pm. It offers funny and creative, but still informative and scientific presentations of state-of-the-art and original research. The science slam is a special form of oral presentation that reaches a broad audience.

Keynotes

During this year's Congress, there will be a total of six Keynotes. Each keynote speaker is an international, highly renowned scientist, all from different fields of sport and exercise psychology. They will hold a presentation of 45 minutes, followed by 15 minutes of discussion, which is open to questions from the audience. The entire keynote is moderated by a chair.

Invited Sessions

FEPSAC aims to connect associations from all over the world. Therefore, the organizing committee presents invited sessions from the

- Association for Applied Sport Psychology (AASP)
- Asian South-Pacific Association of Sport Psychology (ASPASP)
- European College for Sport Science (ECSS)
- European Network for Young Specialists in Sport Psychology (ENYSSP)
- International Society of Sport Psychology (ISSP)

Besides, the European Federation of Sport Psychology (FEPSAC) also hosts invited symposia. The sessions consist of oral presentations from multiple speakers and panel discussions, each scheduled to be 90 minutes.

Featured Sessions

The scientific committee has decided to feature several panel discussions and symposia to highlight various topics relating to Sport and Exercise Psychology. The sessions consist of oral presentations from multiple speakers and panel discussions and are scheduled to be 90 minutes.

Speaker's Ready Room

Prior to their presentation, all speakers and presenters are asked to deliver their presentation in the speaker's ready room, which is located at the first floor in the Schloss, next to the Senatssaal (Prague).

- Please save the file of your presentation on a USB 2.0 flash drive or external hard drive.
- Please submit the file of your presentation to the speaker's ready room at least 2h before your appointed time and let us take care of arranging the set-up.
- Please name your file as follows: „YourLastName.YourFirstName.ShortTitle.SessionNr.pptx“ (e.g. „Mueller.Steven.Motor Development in Children.Session 2.pptx“)

You can also submit your presentation directly at the presentation room, at least 20 minutes before the start of the session. The session chair is responsible for starting and ending all sessions according to the time schedule and to allow enough time for questions. Each presentation is supposed to take 12 minutes with up to three minutes of discussion afterwards. Staff members will be present in each room to assist with technical issues and for further inquiries.

Should you find yourself unable to present at your scheduled time, please contact the Congress team (Information Desk AND/OR speaker's ready room) immediately.

CONTINUING EDUCATION (CE) CREDITS FOR SPORT PSYCHOLOGY PRACTITIONERS

FEPSAC 2019 is the first European Congress of Sport and Exercise Psychology where sport psychology practitioners can earn Continuing Education (CE) Credits for re-certification with their respective organizations or associations. Thus, FEPSAC 2019 is even more interesting for professionals working in applied sport and exercise psychology. The organizing committee has been working diligently with leading international sport psychology associations that offer certification programs and is happy that their applications for CE Credits with the Association for Applied Sport Psychology (AASP), the American Psychological Association (APA) and the German Society for Sport Psychology (asp) have been successful. The amount of credits approved depends on the respective system of the associations:

AASP

The Association of Applied Sport Psychology (AASP) has confirmed that Certified Mental Performance Consultants (CMPCs) will be able to earn CEUs at FEPSAC 2019. Congress attendance will be worth 12 Continuing Education Units (CEUs) for Certified Mental Performance Consultants (CMPCs) when renewing their certification. One panel discussion on ethics and the Invited ISSP Symposium on supervision/mentorship will each be worth 1.5 CEUs. Additionally, the two applied pre-congress workshops (Mindfulness & Sport Psychology for Coaches) have been awarded 4 CEUs each. Overall, attendees can earn a maximum of 19 CEUs with AASP for attending FEPSAC 2019 and the sessions specifically recognized by AASP.

asp

The German Society for Sport Psychology (asp) in association with the German Federal Institute of Sport Science has approved CE credits for 12 applied Congress and two applied pre-congress workshops. Each Congress workshop will be worth 2 CE Credits, the two applied pre-congress workshops will be worth 5 CE Credits each. Thus, a maximum of 23 CE Credits can be earned, if all respective workshops are attended.

APA

With the American Psychological Association (APA) attendees can earn 4 CE Credits for the two applied pre-congress workshops and 1.5 CE Credits each for 12 Congress workshops. Thus, a total of 16 CE Credits can be earned from APA, if a workshop is attended in every timeslot.

You can find a complete list of the workshops that CE Credits are awarded for on the website: <https://www.fepsac2019.eu/ce-credits>

How to collect your CE Credits

AASP: Use your Certificate of Attendance that all registered participants of FEPSAC 2019 receive after the Congress as proof of congress attendance when re-certifying with AASP to be awarded the 12 CEUs. For the respective panel/symposium a list of attendees interested in AASP CEUs will be created and a specific, individualized certificate of attendance will be generated in pdf format. This document will be emailed to those that have attended and earned the CEUs within the next few days following the respective session.

asp: For the respective workshops a list of attendees interested in asp CE Credits will be created and a specific, individualized certificate of attendance will be generated in pdf format. This document will be emailed to those that have attended and earned the CE Credits within the next few days following the respective session.

APA: For the respective workshops a list of attendees interested in APA CE Credits will be created. In order to process your request for CE Credits with APA a one-time fee of € 60 will have to be paid at the Information Desk. After the Congress the local organizers will forward the list of attendees of the respective workshops to APA, then receive the CE certificate from APA and subsequently forward it to attendees via email.

Please email to fepsac2019@uni-muenster.de for any inquiries regarding CE Credits at FEPSAC 2019, or talk to the representatives at the Information Desk.

10 ANNIVERSARY: 50 YEARS OF ASP

building the future of sport
& exercise psychology.

Anniversary: 50 years of asp (the German Society for Sport Psychology)

The German Society for Sport Psychology (asp) invites all friends of the Society to celebrate its 50th anniversary on Tuesday, July 16th, between 2pm and 3.30pm, in room Muenster (S10, Schloss). Following the Featured Symposium, chaired by asp-president Bernd Strauss, that includes three presentations the asp invites all attendees to a short get-together.

Not only FEPSAC, founded 1969 in Vittel (France) will celebrate its 50th anniversary, but also the German Society for Sport Psychology (asp) (German: Arbeitsgemeinschaft für Sportpsychologie e.V., abbr. asp). The German Society asp was founded 1969 (Oct. 8th) in Muenster (Germany). The society consists of 475 members (May 2019). The managing council consists of a president and six vice-presidents (e.g. for elite sports, student research training issues, exercise and health, research and international affairs). The society is a group member of FEPSAC and ISSP, and collaborates e.g., with the German Federal Institute of Sport Science (BISp), the German Society of Sport Science (dvs), the German Psychological Society (DGPs), and the German Olympic Sport Federation (DOSB). The purpose is to encourage and promote the study of human behaviour within sport and exercise as well as to improve the quality of research and professional practice in sport and exercise psychology. This mission is e.g., realized by an annual national conference (in May 2019, the 51st conference took place), training and certification (in collaboration with the Federal Institute of Sport Science, BISp) in elite sports as well as health or methodological training. The official journal of the Society is the German Journal of Sport Psychology (Zeitschrift für Sportpsychologie; publisher: Hogrefe), founded in 1987. Most relevant information is provided via the homepage:
